

OPERATIONAL DOCUMENT

CCA-EMC 501
Annex B

CCA-EMC Agreement

Annex B: Standards applicable to the CCA-EMC Mark

Approved by:	ECS General Meeting of 12/13-04-2011	No. of pages: 27
Date of issue:	February 2013 (administrative update)	
Supersedes:	OD CCA-EMC 501 Annex B - July 2012	Page 1 of 27

NOTES

- The standards to be used for the CCA-EMC Mark shall give the presumption of conformity to the European Directive.
- References of the Standards are published in the Official Journal of the European Communities under the EMC Directive: these standards give the presumption of conformity to the essential requirements of the EMC Directive.
- When the reference of an EMC product or product family standard is published in the Official Journal of the European Communities under the EMC Directive, the product standard take precedence over generic standards.
- If there is a new publication of references of EMC standards in the Official Journal of the European Communities, the new publication in the Official Journal shall take precedence.
- New editions or amendments of standards not yet published in the Official Journal of the European Communities may be used for issuing CCA-EMC Mark licences. These new editions or amendments do not give the presumption of conformity to the requirements of the EMC Directive.

The document from June 2011 was based on the Official Journal of the European Union 2011/C 59/01 from 24 February 2011.

This revision is based on the Official Journal of the European Union C 321 of 23 October 2012.

The input data for the update can be found on the website of the EU at the following address:
http://ec.europa.eu/enterprise/policies/european-standards/harmonised-standards/electromagnetic-compatibility/index_en.htm,

Summary list of titles and references harmonised standards under Directive 2004/108/EC for Electromagnetic compatibility (EMC)

The summary list hereunder is a compilation of the references of harmonised standards which have been generated by the HAS (Harmonised standards) database. This IT application HAS automates the process of the publication of the references of harmonised standards in the Official Journal of the European Union.

It does not have any legal validity; only publication in the Official Journal gives legal affect.

ESO	Reference and title of the harmonised standard (and reference document)	Reference of superseded standard	Date of cessation of presumption of conformity of superseded standard Note 1
Cenelec	EN 50065-1:2001 Signalling on low-voltage electrical installations in the frequency range 3 kHz to 148,5 kHz -- Part 1: General requirements, frequency bands and electromagnetic disturbances	EN 50065-1:1991 + A1:1992 + A2:1995 + A3:1996 Note 2.1	Date expired (01/04/2003)

(1) ESO: European Standardisation Organisation:

Note 1: Generally the date of cessation of presumption of conformity will be the date of withdrawal ("dow"), set by the European Standardisation Organisation, but attention of users of these standards is drawn to the fact that in certain exceptional cases this can be otherwise.

Note 2.1: The new (or amended) standard has the same scope as the superseded standard. On the date stated, the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

Note 2.2: The new standard has a broader scope than the superseded standard. On the date stated the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.

Note 2.3: The new standard has a narrower scope than the superseded standard. On the date stated the (partially) superseded standard ceases to give presumption of conformity with the essential requirements of the directive for those products that fall within the scope of the new standard. Presumption of conformity with the essential requirements of the directive for products that still fall within the scope of the (partially) superseded standard, but that do not fall within the scope of the new standard, is unaffected.

Note 3: In case of amendments, the referenced standard is EN CCCCC:YYYY, its previous amendments, if any, and the new, quoted amendment. The superseded standard (column 3) therefore consists of EN CCCCC:YYYY and its previous amendments, if any, but without the new quoted amendment. On the date stated, the superseded standard ceases to give presumption of conformity with the essential requirements of the directive.
