Annex P	<ul style="list-style-type: none"> - Data - Manufacturer - Procedure A 	OSM/LUM-ETF5	2019 ETICS Plenary Meeting
Question			
<p>Procedure A seems to be a theoretical calculation based on information from the manufacturer. Shall the transmission T be measured or is it enough with information from the manufacturer which shows that the transmission is less than what the calculation shows? A problem in the calculation process may be that the "P eff" is not available.</p>			
Decision			
<p>We use manufacturers' data.</p>
