Small push in lamp – Small plastic lampholder – Mechanical test	- Push in lamp - Plastic lampholder - Mechanical test	OSM/LUM-ETF5	2019 ETICS Plenary Meeting
Question			
<p>We seek clarification on the correct method to perform a mechanical impact test for both mains rated voltage, SELV and ELV lighting chains in respect of clause 20.7.6 of the above referenced standards. The seems to be a difference between IEC and EN.</p> <p>IEC version standard references tests to 60238 clause 15 on three samples (push in type) clause 15.2 applies but which force?</p>			
Decision			
<p>15.2 is not applicable to push in type lampholder. 20.7.13 takes over.</p>			
Explanatory notes
