Torque test on energy saving lamp	<ul style="list-style-type: none"> <li>- Energy saving lamp</li> <li>- Torque test</li> <li>- Bulb of the lamp</li> </ul>	OSM/LUM-ETF5	2019 ETICS Plenary Meeting

### Question

We have tested the energy saving lamp shown in the photograph.

When applying the torque between the cap and the bulb of the lamp per clause 8, we had the following results:

- torque applied between part 1 and part 2 : pass
- torque applied between part 1 and part 3 : rotation of part 3 by more than 10 degrees.

Is this construction in accordance with the standard?

### Decision

No.

### Explanatory notes
