Provision for earthing	<ul style="list-style-type: none"> - Protective earthing - Soldered joints - Zinc coated mild steel 	OSM/LUM-LUM	2019 ETICS Plenary Meeting
Question			
<p>Is it acceptable to use soldered joints (like on the picture below) for protective earthing of accessible metal housing made of zinc coated mild steel, if these soldered joints are made on a surface without any hole, or any other recess or protrusion?</p> <div style="text-align: center;">  </div>			
Decision			
<p>No, this connection is not considered to be reliable.</p>
