Serial compensation for ballast	- Tolerances - Capacitors - Ballast	OSM/LUM-ETF5	2019 ETICS Plenary Meeting
Question			
<p>The serial compensation for ballast should be tested as well, if this possibility is mentioned on the ballast. This because the use of a serial capacitor might strongly affect the behaviour of the ballast. Do you agree?</p>			
Decision			
<p>For a ballast marked with series capacitor, (even if it is a dotted line indicating the capacitor) the testing shall be performed in this respect accordingly. The tolerances of the capacitor must also be taken into account.</p>
